porter green

PORTER GREEN & SUSTAINABILITY

The porter green message is simple: for the future of our planet and for the sake of our children, grandchildren and beyond, make sustainable choices: choose reusable over single-use every time.

The porter green collection utilizes sustainable materials & ethical production processes. Longevity is the ultimate in sustainability which is why porter green products are designed to last.

- unbreakable tumblers
- reusable | sustainable
- made of silicone
- portable | lightweight
- odourless | flavourless
- dishwasher safe
- LFGB + FDA approved food-grade silicone
- safe for use from -20 to +110 degrees °C
- perfect for everyday living, gifting & entertaining

PORTER VERDE E SOSTENIBILITÀ

Il messaggio di Porter Green è semplice: per il futuro del nostro pianeta e per il bene dei nostri figli, nipoti e oltre, fate scelte sostenibili: scegliete ogni volta un materiale riutilizzabile piuttosto che quello monouso.

La collezione Porter Green utilizza materiali sostenibili e processi di produzione etici. La longevità è il massimo della sostenibilità ed è per questo che i prodotti Porter Green sono progettati per durare.

- infrangibili
- riutilizzabili | sostenibili
- realizzati in silicone
- portatili | leggeri
- inodore | insapore
- lavabili in lavastoviglie
- silicone alimentare approvato dalla LFGB + FDA
- sicuro per l'uso da -20 a +110 gradi °C
- perfetto per la vita di tutti i giorni, idee regalo e svago

SILICONE

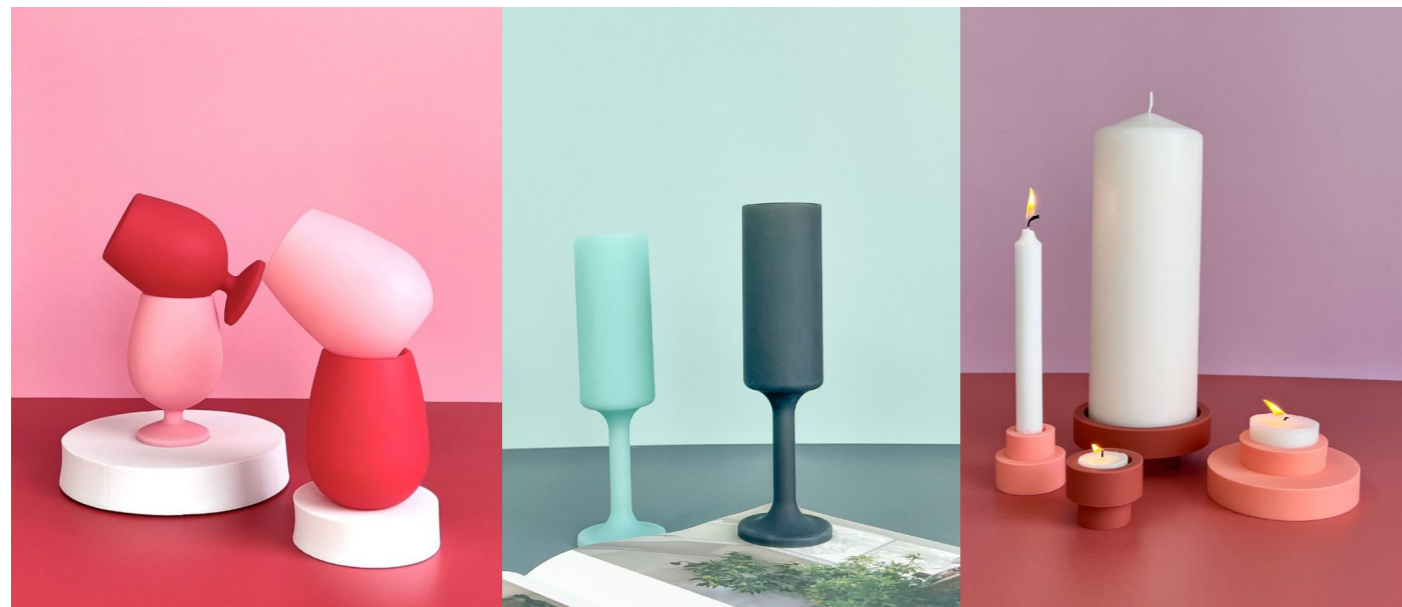

Versatile, resistant, recyclable after a long life, non-polluting, respectful of the soil, flora and fauna, seas, rivers, lakes and oceans: silicone is unquestionably a sustainable alternative to plastic. Polymer manufactured starting from silica, which is found in great abundance in rocks and sand, used for centuries in the production of glass, silicone is a material lending itself to multiple uses also and above all in the field of Design at the service of Functionality and Practicality without sacrificing respect for the environment! A striking example is Porter Green, the brand new collection of glasses, goblets, cocktail cups, candle holders and many other accessories for home, garden and all open-air spaces.

Made of LFGB food silicone (Lebensmittel-, Bedarfsgegenstände-und Futtermittelgesetzbuch) in compliance with the most recent EEC regulations regarding food contact safety, the Porter Green collection revolutionizes our idea of "glass" an indispensable everyday object, making it to all intents and purposes a fashion accessory, Glamorous, practical, indestructible, Green and Beautiful!

SILICONE

Versatile, resistente, riciclabile dopo una lunga vita, non inquinante, rispettoso del suolo, della flora e della fauna, dei fiumi, dei laghi, dei mari e degli oceani: il silicone è indiscutibilmente un'alternativa sostenibile alla plastica. Polimero fabbricato a partire dalla silice, che si trova in grande abbondanza nelle rocce e nella sabbia e che viene utilizzata da secoli per la produzione del vetro, il silicone è un materiale che si presta a molteplici utilizzi anche e soprattutto nel campo del Design al servizio della Funzionalità e Praticità senza rinunciare al rispetto dell'ambiente! Un esempio eclatante è Porter Green la nuovissima collezione di Bicchieri, Calici, Coppe Cocktail, Portacandele e tanti altri accessori per la casa, il giardino e tutti gli spazi all'aria aperta.

Realizzata in Silicone alimentare LFGB (Lebensmittel-, Bedarfsgegenstände-und Futtermittelgesetzbuch) nel rispetto delle più recenti normative CEE in merito di sicurezza al contatto con i generi alimentari, la collezione Porter Green rivoluziona la nostra idea di "Bicchiere" un oggetto quotidiano indispensabile, rendendolo a tutti gli effetti un accessorio di moda, Glamour, pratico, indistruttibile, Green e Bellissimo!
